This session provides an update to NOVEL: the Neuro-Ophthalmology Virtual Education Library. Many enhancements have been made to the digital library, and new collections have been added. Specific collections, such as those of Shirley H. Wray, Robert B. Daroff, and Helmut Wilhem will be highlighted. Following the NOVEL update, free web-based online tools which can make member's lives easier will be presented. The tools covered will include the Doodle Poll and Scheduler, a free online tool that makes organizing meetings and getting feedback a snap. Other tools from the Google suite will be demonstrated, including Google Scholar, Desktop, Docs, Calendar and using YouTube to share video clips. A brief overview of methods for sharing EndNote libraries will be covered. NOVEL help and EndNote consultations will be available at the NOVEL table outside the main lecture hall throughout the meeting.
