Spencer S. Eccles Health Sciences Library
University of Utah

Edmond J. FitzGibbon M.D.
Neuro-ophthalmology, Laboratory of Sensorimotor Research
ejf@nei.nih.gov
National Eye Institute/NIH

This session provides an update to NOVEL: the Neuro-Ophthalmology Virtual Education Library. Many enhancements have been made to the digital library, including the Walsh & Hoyt Clinical Neuro-Ophthalmology Textbook, the NANOS Annual Meeting and the archives of the Journal of Neuro-Ophthalmology. These new collections will be highlighted. Following the NOVEL update, the latest tablet and eReader devices and applications will be reviewed. The Apple iPad and the Android Tablets will be demonstrated, covering useful applications on each. A variety of eReaders will be reviewed, including the Kindle, nook, and the tablet eReader apps. The Digital Tidbits segment will highlight tools including medical and neuro-ophthalmology apps, gadgets, media, and web sites. Google Plus and Google Sites, free web-based collaborative workspace tools, will be demonstrated. NOVEL help and EndNote consultations will be available at the NOVEL table outside the main lecture hall throughout the meeting.

Program Outline

1. NOVEL Update
2. Tablets and eReaders – How do they work? What do they do for you?
3. Digital Tidbits –More sites, gadgets, apps and media to make your life easier
4. Google Plus and Sites - free web-based collaborative workspace tools
5. EndNote X5 Overview
6. EndNote Consultations – Ongoing throughout meeting at NOVEL information table

Learning Objectives

Members will be able to:

1. Use the new features and collections in NOVEL and improve their practice by increasing access to educational materials for physicians, students and patients
2. Determine if a Tablet device or eReader will be useful to them
3. Learn new sites, gadgets, applications and media that save time or access information
4. Collaborate with colleagues or manage a team project using Google Plus and Sites to communicate, write and share documents, make announcements and more
5. Update EndNote skills and learn new features of X5
