NANOS Examination Techniques (NExT) with Walsh & Hoyt's Clinical Neuro-Ophthalmology

NExT is a database and structured curriculum developed from collaborative efforts of NANOS, NOVEL, Eccles Health Sciences Library, and TDS Health.

The goal of NExT is to enhance clinical examination skills of learners at all training levels who evaluate patients with visual and neurological complaints.

Features Include

- 333 Neuro-Ophthalmology examination techniques
- Techniques are sorted across basic, intermediate, and advanced levels.
- Contextual links to *Walsh & Hoyt's*
- 14 sections built with text, videos, audio, slides, and color figures.
- Applies to ophthalmology, neurology, otolaryngology, optometry, primary care, and rehabilitation medicine.

Digital access through TDS Health

NANOS is offering a one-year subscription through the TDS Health digital library, for the price of \$299. Additional resources include:

- AAFP Conditions A to Z
- Drug Interactions from The Medical Letter
- EBMcalc
- Stedman's Medical Dictionary
- Merck Manual Consumer Version
