The Neuro-Ophthalmology Virtual Education Library (NOVEL) is an open access, discipline specific repository of multimedia (images, videos, lectures and other digital media) to support neuro-ophthalmology professionals, educators, students and patients. This collaboration between the North American Neuro-Ophthalmology Society (NANOS) and the Eccles Health Sciences Library of the University of Utah creates a unique model for digital collection development. NANOS members are enthusiastic about the project and have committed a great deal of time and energy in providing content, metadata, and peer review.

GENERAL INFORMATION
- The About NOVEL page: provides background information on the project (http://NOVEL.utah.edu/about). The web site received 2,454,000 hits this year from more than 231,000 visits from users in 154 countries.

- Shirley H. Wray Collection: http://NOVEL.utah.edu/Wray/

JOURNAL OF NEURO-OPTHALMOLOGY ARCHIVES
- The entire archive of the Journal of Neuro-Ophthalmology (JCNO1981-1993 and JNO 1994-2010) are now available on the NOVEL Web site: http://NOVEL.utah.edu/jno. Agreements were made with the journal publishers to obtain the rights to the articles from all issues, with a one year embargo on current material. The archive is complete and will add each new issue as the one year embargo is lifted. This provides a permanent repository for the journal, and integrates the literature with the educational material.

NEW COLLECTIONS
- The NANOS Annual Meeting abstracts are being added to the NOVEL collection. All abstracts from the 2009 and 2010 meetings are now indexed and searchable online.
- The Walsh & Hoyt Clinical N-O Textbook, 6th addition is now available online.
- David G. Cogan Collection – With the help of Drs. Shirley Wray and Nick Hogan, nearly 50 hours of clips will be added to the Cogan Collection this year: http://novel.utah.edu/Cogan/
- David Newman-Toker has contributed 6 exam video, 5 lectures and an animation. These are indexed and available online at http://NOVEL.utah.edu/Newman-Toker
